

TABLET WEBINAR

The Prophetic Voice of the Church

Our call as Christians is to be like Jesus, who stood on the margins, comforting the oppressed and challenging those who are comfortable.

In this webinar we will examine the nature of the prophetic call of the Church in today's world. We will look at ways in which different churches have risen to the challenge of their calling and at recent examples of times when the churches have failed to fulfil their calling to "speak truth to power".

This event is brought to you in conjunction with The Society for Ecumenical Studies and will be recorded.
